

Friday, October 19, 2018 8:30 AM to 12:00 PM	BWI Airport Marriott 1743 West Nursery Road	Baltimore, MD 21090 Hotel Phone: (410) 859-8300
---	--	--

Women’s health issues are affecting your talent pool and health expense!

Did you know:

- 34% of women do not return to their employer after having a baby, and 11% go to work for a different employer?
- The average American woman spends 3 decades trying to avoid pregnancy, and 45% of pregnancies are unintended?
- 6-10 % of women of reproductive age are affected by endometriosis, and women with endometriosis had 205% more hospitalizations in the year before and after the diagnosis? 95% of those women used opioids in the year prior to or after surgery!

Join us on October 19, and find out how much you DIDN’T know, as well as recommendations for addressing these challenges!

Human Resources • Benefits • Medical • Managed Care
